

Direct Deposit Information

The quickest way to sign up for direct deposit – or change it – is to ask your employer for their direct deposit form, then fill it out using your new account number and routing number (see below). You may be able to use this form for any non-governmental organization, but check with your employer first.

You can also use this information to have dividend or insurance payments directly deposited to your account.

No more wondering if the check will get to you on time or whether you will have time to get to the credit union. With Direct Deposit, it is conveniently automatically done for you.
